SIM & Tec (Simulation and Technology), Buenos Aires, Argentina

Education:

1984 Ph.D. Mechanical Engineering, Massachusetts Institute of Technology (MIT)

1982 M.S. Mechanical Engineering, MIT

1974 B.S. Buenos Aires University

Honors:

Argentina Association of Computational Mechanics, Faculty Achievement Award, Professional and Scientific, 2010

FUNDACION KONEX Prize in Science and Technology for the decade 1993-2002.

Diploma of Merit in Technological Development, 2003 discipline.

Fellow of the International Association for Computational Mechanics. (1998)

Fellow of the Argentine Academy of Sciences. (1996 - ...)

FUNDACION KONEX Prize in Science and Technology for the decade 1983-1992.

Merit Diploma in Electronic Engineering discipline and Communications and Computing, 1993

Selected Publications:

Books:

E.N. Dvorkin and M.B. Goldschmit, Nonlinear Continua, Springer, Berlin, 2005 (ISBN: 3540249850)

E.N. Dvorkin and R.G. Toscano, Finite Element Analysis of the Collapse and Post-Collapse Behavior of Steel

Pipes: Applications to the Oil Industry, Springer, 2014

Journal Articles:
