Dept. of Mechanical, Industrial and Aerospace Engineering  
Concordia University, Montreal, Canada

#### **Education:**

2013-2017 PhD Mechanical Engineering, Concordia University, Montreal, Canada

2005-2008 MSc Mechanical Engineering, Khaje Nasir Toosi University of Technology, Tehran, Iran

1999-2004, BS Mechanical Engineering, Isfahan University of Technology, Iran

#### **Selected Publications:**

M. Sadeghifar, M. Bagheri and A. A. Jafari, "Buckling analysis of stringer-stiffened laminated cylindrical shells with nonuniform eccentricity", Archive of Applied Mechanics, (no vol., no. or pp. given) Springer-Verlag, 2010, doi: 10.1007/s00419-010-0457-0

Sadeghifar, M., Bagheri, M. and Jafari, A.A., 'Multiobjective optimization of orthogonally stiffened cylindrical shells for minimum weight and maximum axial buckling load', Thin-Walled Structures, Volume 48(12), pp 979-988, 2010.

Bagheri, M., Jafari, A.A. and Sadeghifar, M., 'Multi-objective optimization of ring stiffened cylindrical shells using a genetic algorithm', Journal of Sound and Vibration, Volume 330(3), pp 374-384, 2011.

Bagheri, M., Jafari, A.A. and Sadeghifar, M., 'A genetic algorithm optimization of ring-stiffened cylindrical shells for axial and radial buckling loads', Archive of Applied Mechanics, Volume 81(11), pp 1639- 1649, 2011.
