Anna University, Chennai, India  
National University of Singapore  
College of Engineering, Guindy  
Delhi University  
University of Wales Cardiff  
Polytechnic of Wales

**Biography:**

Prof. N E Shanmugam has taught for more than 20 years at National University of Singapore. Prior to this he taught in College of Engineering, Guindy, Delhi University, University of Wales (Cardiff) and Polytechnic of Wales. After 50 years of teaching at graduate and undergraduate levels he retired recently from National University of Malaysia where he taught for nine years. His research interest includes steel plated structures, steel-concrete composite construction, long-span structures and connections, cold-formed steel structures, etc. He has published more than 200 research papers in International refereed journals conference proceedings

and contributed chapters in Civil Engineering Handbook, Structural Engineering handbook and Bridge Manual. He is a member of the Editorial Board of a number of International Journals.

**Selected Publications:**

**Editor of books:**

N.E. Shanmugam & C.M. Wang (Editors), Analysis and Design of Plated Structures: Stability, Woodhead, 2006, 480 pages

N.E. Shanmugam and C.M. Wang (Editors), Analysis and Design of Plated Structures: Dynamics, Taylor & Francis, 2007, 508 pages

N.E. Shanmugam, J.Y.R. Liew, V. Thevendran (Editors), Thin-Walled Structures Vol.2, 2nd Intl. Conf., Elsevier, 1998, 826 pages

**Journal Papers:**

N. E. Shanmugam and M. Arockiasamy, "Local buckling of stiffened plates in offshore structures", Journal of Constructional Steel Research, Vol. 38, No. 1, May 1996, pp. 41-59
