Civil and Environmental Engineering and Mechanical and Industrial Engineering, Optimal Design Laboratory  
University of Iowa, Iowa City, Iowa, USA

### **Selected Publications:**

#### **Books:**

Haug E. J. and Arora J. S., Applied Optimal Design: Mechanical and Structural Systems, John Wiley & Sons, N.-Y., 1979

Jasbir S. Arora, Introduction to Optimum Design, 3rd edition, Academic Press, 2004, 720 pages

Jasbir S. Arora (Editor), Optimization of Structural and Mechanical Systems, World Scientific, 2007, 600 pages

#### **Journal Articles, etc.:**

J. S. Arora and E. J. Haug. Methods of design sensitivity analysis in structural optimization. AIAA Journal, 17(9):970–974, 1979.

Ryu, Y.S.; Hariran, M.; Wu, C.C.; Arora, J.S. 1985: Structural design sensitivity of nonlinear response. Comp. Struct. 21, 245–255

Hsieh, C.C.; Arora, J.S. 1985: Structural design sensitivity analysis with general boundary conditions: dynamic problem. Int. J. Num. Meth. Eng. 21, 267–283

Hsieh, C.C.; Arora, J.S. 1986: Algorithms for point-wise state variable constraints in structural optimization. Comp. Struct. 22, 225–238

C.C. Wu and J.S. Arora, Design sensitivity analysis and optimization of nonlinear structural response using incremental procedure. AIAA J., 25, No. 8 (1986), 1118–1125

Wu CC, Arora JS (1987) Simultaneous Analysis and Design of Nonlinear Response. Eng Comput 2:53–63

Arora, J.S.; Wu, C.C. 1987: Design sensitivity analysis and optimization of nonlinear structures. In: Mota Soares, C.A (ed.) Computer aided optimal design: structures and mechanical systems, pp. 589–604. Berlin, Heidelberg, New York: Springer

Wu, C.C.; Arora, J.S. 1987: Design sensitivity analysis of nonlinear response using incremental procedure. AIAA J. 25, 1118–1125
