

Professor Ali Limam

URGC-Structures, INSA de Lyon, 20 Ave Albert Einstein, 69 621, Villeurbanne, France

Selected publications:

A. Limam, Flambage de coques cylindriques sous combinaison de chargements. Pression interne et compression axiale (Buckling of cylindrical shells under combined loads. Internal pressure and axial compression). PhD Thesis, INSA Lyon, 1991

J.F. Jullien and A. Limam (Research Unit of Civil Engineering, Institut National des Sciences Appliquées, Lyon, France), “Effects of openings of the buckling of cylindrical shells subjected to axial compression”, *Thin-Walled Structures*, Vol. 31, Nos. 1-3, May 1998, pp. 187-202, doi:10.1016/S0263-8231(98)00003-2

J.F. Jullien, A. Limam and G. Gusic (URGC Bât 304, INSA de Lyon 69621 Villeurbanne, France), “Cylindrical Shells Buckling Under External Pressure — Influence of Localised Thickness Variation”, *Advances in Steel Structures (ICASS '99)*, Proceedings of The Second International Conference on Advances in Steel Structures 15–17 December 1999, Hong Kong, China, 1999, pp. 613-619, doi:10.1016/B978-008043015-7/50072-5
