

Professor Abolhassan Vafai

See:

<http://sharif.edu/~vafai/>

Department of Civil Engineering
Chairman: Office of International and Scientific Cooperation
Sharif University of Technology, Tehran, Iran

Education:

1972 Ph.D., Structures, University of Houston, USA
1968 M.S. and B.S., Civil Engineering, University of Southwestern Louisiana, USA
1972 Registered Professional Engineer - No. 34228, State of Texas

Career:

1990-Present: Professor of Civil Engineering and Chairman, Office of International and Scientific Cooperation, Sharif University of Technology, Tehran, I.R.Iran
1990-1994 Chairman, Regional Coordinating Center for Science & Technology, I.R.Iran
1980-1990 Professor of Civil Engineering, Shiraz University, Shiraz, I.R.Iran
1983-1989 Chairman, Research Center for Rehabilitation and Renovation of Damaged Areas in Iran
1980-1984 Chairman, Department of Civil Engineering, Shiraz University, Shiraz, I.R. Iran
1978-1980 Associate Professor of Civil Engineering, Washington State University, Pullman, Washington, USA
1974-1978 Associate Professor of Civil Engineering, Shiraz University, Shiraz, I.R. Iran
1972-1974 Assistant Professor of Civil Engineering, University of Northern Arizona, Flagstaff, Arizona, USA
1965-1968 Chief Structural Engineer, Brown & Root Inc., Houston, Texas, USA

Selected Publications:

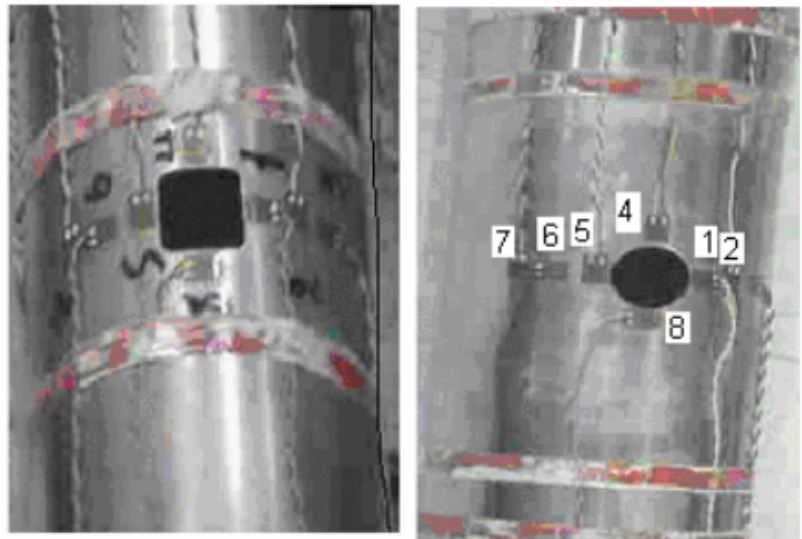

Figure 5. Strain gauges layout for specimens M12 and M18b
